

The National Association of Secondary School Principals (NASSP) has placed StellarXplorers on the 2017-18 NASSP List of Approved Contests, Programs, and Activities for Students.

Since 1941, NASSP has published the ***NASSP List of Approved Contests, Programs, and Activities for Students***. The approval cycle for each edition spans from September of a given year through the following August.

The purpose of this list—developed through NASSP's National Committee on Student Contests, Programs, and Activities—is to assist principals, teachers, parents, and students in determining the legitimacy and educational value of a variety of external student program opportunities. The National Committee reviews all programs based on the **following standards:**

- Educational value
- Financial support
- Organizational structure
- Promotional accuracy
- Fair, appropriate adjudication

The NASSP Committee on Student Contests, Programs, and Activities has found StellarXplorers to meet committee standards and thereby approved for inclusion on the 2017-2018 NASSP List of Approved Contests, Programs, and Activities for Students.

The approval of a program to the NASSP List does not imply or represent NASSP endorsement, and language that may imply endorsement cannot be used on any program-related materials or otherwise conveyed to consumers. Any language or communications implying endorsement by NASSP may result in a program's removal from the list.
