

# STELLARXPLORERS

THE NATIONAL HIGH SCHOOL SPACE CHALLENGE

## Our Sponsors

### INTERSTELLAR

**Air Force Research Laboratory (AFRL)** is the Air Force's only organization wholly dedicated to leading the discovery, development, and integration of warfighting technologies for our air, space and cyberspace forces. The STEM Outreach Office is charged with coordinating Air Force efforts to attract additional students to enter STEM fields. [www.wfafb.af.mil/afrl](http://www.wfafb.af.mil/afrl)

### STELLARPLATINUM

America's Ride to Space

**United Launch Alliance (ULA)** is the nation's most experienced space launch company with more than 123 consecutive launches and a 100% mission success rate, delivering satellites to orbit that provide critical capabilities for our troops, aid in tracking severe weather, enable GPS navigation and unlock the mysteries of our solar system. ULA brings the utmost **precision, passion, and purpose** to one of the most technically complex, critical American needs: affordable, reliable access to space. [www.ulalaunch.com](http://www.ulalaunch.com)

### STELLARGOLD

**Orbital ATK** designs, builds and delivers space, defense and aviation-related systems to customers around the world both as a prime contractor and as a merchant supplier. Main products include launch vehicles and related propulsion systems; satellites and associated components and services; composite aerospace structures; tactical missiles, subsystems and defense electronics; and precision weapons, armament systems and ammunition. [www.orbitalatk.com](http://www.orbitalatk.com)

### STELLARSILVER

**Kratos Defense & Security Solutions, Inc.** is a specialized technology company providing mission critical products, solutions and services for U.S. National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for national security platforms and programs. [www.kratosdefense.com](http://www.kratosdefense.com)

**SpaceX** designs, manufactures and launches advanced rockets and spacecraft. The company was founded in 2002 to revolutionize space transportation, with the ultimate goal of enabling people to live on other planets. Today, SpaceX is advancing the boundaries of space technology through its Falcon launch vehicles and Dragon spacecraft. [www.spacex.com](http://www.spacex.com)

### EDUCATIONAL ALLIANCE

Educational Alliance Program

**Analytical Graphics, inc. (AGI)** provides commercial software for designing, developing and operating missions within the space and national defense communities. AGI's Systems Tool Kit (STK) is a 2D and 3D modeling environment used by engineers, mission analysts, operators and decision-makers to model complex systems (such as aircraft, satellites, ground vehicles and their sensors). [www.agi.com](http://www.agi.com)

**The Space Foundation** is a global, nonprofit leader in space awareness activities, educational programs that bring space into the classroom and major industry events. The foundation's mission is to advance space-related endeavors to inspire, enable and propel humanity. [www.spacefoundation.org](http://www.spacefoundation.org)

**Coyote Enterprises, Inc. (CEI)** is a dedicated group of 300+ authors and editors creating books and interactive materials focused on providing space professionals, students and professors with the most up-to-date, integrated set of space technology references possible.
