

## StellarXplorers VII Educational License Procedures

**Obtain Educational License:** StellarXplorers is a member of AGI's Educational Alliance Program (EAP). AGI offers three types of STK Educational License Suites to EAP members, which are valid from August 1 until the following July 31. Typically, AGI will allow you to request a new Educational License starting July 1. Almost all teams choose the Node-Locked License option. If you want a Network License, contact us at [stellarxplorers@afa.org](mailto:stellarxplorers@afa.org).

- A. "Node-locked License":** This License is tied to a specific computer based on the Computer's Host ID. One advantage is once STK is downloaded with this license, STK can be used without Internet access. To obtain a Node Locked License you must send the following information to [stellarxplorers@afa.org](mailto:stellarxplorers@afa.org): **Team Number** and **Host ID** from each computer. The easiest way to find the Host ID is to open STK (once you've downloaded the Basic version) and click on the Help Button at the top of the screen and select License Viewer. The StellarXplorers staff will request the License and then forward to you.

A Host ID is the unique identifier used by licensing software to tie a license to a specific computer

- It is a 12-digit alphanumeric string, such as 3863bb9c9560 (Note: no dashes or spaces)
- Each computer and operating system has a different way for obtaining the Host ID so use YouTube video (or Internet Search) to find how to obtain your computer's Host ID
